🪪 PROFILE

Results-driven iOS Developer with 9+ years of experience in designing and developing robust, user-centric iOS applications. Proven expertise in Objective-C, Swift, SwiftUI, and MVVM architecture. Passionate about delivering high-performance solutions through clean code, continuous learning, and a strong focus on user experience. Dedicated to contributing to organizational success while advancing personal and professional growth.

🧠 SKILLS

Languages
Swift, Objective-C

UI Development
UIKit, SwiftUI (basic)

Networking
REST APIs, URLSession, JSON parsing

Architectures
MVC, MVVM

Data Persistence
Core Data, SQLite, UserDefaults

Audio & Speech
AVFoundation, Speech Framework, Audio Engine

💼 PROFESSIONAL EXPERIENCE

iOS Developer
Cogniter Technologies

10/2019 – 06/2025
Chandigarh, India

- Developed and launched 10+ iOS apps on the App Store, delivering high-quality user experiences with reliable performance.
- Built multiple apps in Swift from scratch, featuring custom UI/UX design, Apple Pay integration, and social media connectivity.
- Refactored legacy Objective-C codebases to Swift 5, enhancing code quality, maintainability, and performance.

iOS Developer
Activecraft Software Development

04/2015 – 10/2019
Mohali, India

- Developed multiple iOS applications from scratch using Objective-C and Swift, following the MVC architectural pattern for maintainability and scalability.
- Built and maintained a property management app to streamline tenant communication and request handling.
- Integrated RESTful APIs, Core Data, and SQLite for efficient data handling and offline support.

🗁 PROJECTS

Voice To Type 🔗
App Store URL: https://apps.apple.com/in/app/voice-to-type/id6743531085

- A smart transcription tool that converts live speech and voice messages into accurate text in real-time.
- Users can save, review, and share transcriptions along with original recordings.
- Ideal for students, professionals, and content creators.

Tech Stack: Swift, MVVM, Speech Framework, AVFoundation, Core Data, FileManager, SwiftUI.

The Past Weather 🔗
App Store URL : https://apps.apple.com/in/app/the-past-weather/id6738185937

A unique weather-history app that allows users to explore historical weather data for any date and location worldwide. Provides daily summaries and hourly breakdowns of temperature, precipitation, wind speed, and more. The app dynamically changes its theme based on the selected day's weather conditions, offering an immersive and intuitive user experience.

Tech Stack: Swift, MVVM, SwiftUI, Core Location, MKMapView, RESTful Weather APIs, JSON Parsing, Core Data, Charts, Date & Time Manipulation, Dynamic UI Theming

RR Academy (Rajasthan Royals Academy) 🔗
App Store URL : https://apps.apple.com/in/app/rr-academy/id6504992448
A location-based app that allows users to browse and select from multiple sports academies across different regions. Designed to streamline academy discovery, enrollment, and communication for aspiring athletes and parents.
Tech Stack: Swift/Objective-C, MVVM, UIKit, Core Location, RESTful APIs, Firebase, Push Notifications.

Ospreys Hub 🔗
App Store URL: https://apps.apple.com/in/app/ospreys-hub/id1538712962
A next-gen rugby app enhancing fan engagement and player development. Offers exclusive content like player masterclasses, coaching insights, session plans, and special discounts. Designed to connect fans, players, and coaches through an interactive and content-rich platform.
Tech Stack: Swift, MVVM, UIKit, AVKit, Push Notifications, Stripe Payment Gateway, RESTful APIs, Firebase Analytics.

🎓 EDUCATION

B. Tech in Computer Sciences   2011 – 2014
Punjab Technichal University

Diploma in Computer Sciences   2008 – 2010
Punjab State Board of Technical Education
